The issues and purpose of the Conference

Conferences taking place at the Faculty of Social Sciences of the Masovian State University in Płock are regular scientific meetings devoted to the issues related to the functioning of enterprises, banks and insurance companies. Theoretical practitioners and researchers of the subject have a chance to present their views and research at the National Scientific Conference.

Thematic issues

Economics and finance – taxes and state expenses as instruments of economic stabilization; unemployment in Poland; economic and social effects of inflation; functioning of the market - demand, supply; enterprise - types, goals of activity, production theory, forms of settlement, costs in the enterprise; money evolution and money supply control instruments; social economy; Public finances; business insurance finance; central bank and commercial bank finance; finances of the health care system; finances of the European Union; business finance; capital market, shadow economy.

Management – management and work of a manager; human resource management in organizations; organizational environment and ethics in the organization; managing social responsibility; planning and decision making; organizing process; leadership process; controlling process; entrepreneurship and business creation; and managerial careers; budgetary and financial control tools.

Security, political science, administration – the impact of crime on the economy; economic crime; banking crime; insurance crime; offenses related to the award of public contracts; crime in the indirect tax sector; crime to the detriment of EU funds, crime against the environment; determinants of economic policy and administration.
