- **Witalij Rybczak, Dr. Assoc. Professor** - Ignacy Mościcki State University of Applied Sciences in Ciechanów

Theme and Purpose of the Conference

The scientific conferences held at the Faculty of Social Sciences of the Mazovian Academy in Płock are meetings of cyclical nature. They constitute a platform for exchanging experiences and good practices. The conference shall be attended by the representatives of Polish and foreign scientific institutions conducting research in the field of the disciplines of economics and finance, sciences of management and quality as well as sciences of security. The purpose of the conference is the exchange of knowledge regarding the new trends in economies, public finances and public security in conditions of economic instability and global crises. The conference will also be an opportunity for integration and shall contribute to establishing a platform for cooperation between the representatives of science and practice. We do encourage your stationary participation in the conference. The conference fee includes accommodation, lunch, a gala dinner at the end of the first day of the conference as well as a guided sightseeing tour of Płock.

Range of topics

- economic policy and public policy, problems of social and financial exclusion and inclusion.
- contemporary challenges (pandemic, economic crisis, progressing inflation, ensuring energy security, Russian aggression against Ukraine, arrival of war refugees in Poland).
- entrepreneurship and labour markets, unregistered labour market, shadow economy.
- problems of the global and European economy, functioning of selected markets.
- European Union, European institutions, European Union policies.
- climate policy, social and economic challenges of energy transformation.
- structural changes in national economies and the world economy.
- threats to socio-economic development.
- financial management, corporate finance, alternative forms of financing.
- commercial and cooperative banks, social and property insurance, innovations in the economy.
- management of organizations and human capital.
- security in the personal and institutional dimension.
